Hy2Grid scope at a glance

Solution capabilities	Baseline	Compactline	Flexline
Normal operation			
Automatic start and stop with different control modes	■	■	■
Power unit optimization functions	□	■	■
Portable control, monitoring and e-documentation – tablet	□	■	■
Comfort and optimization applications (cloud-based)	□	■	■
IoT (Internet of Things) ready for next generation applications	■	■	■
Secure remote access and maintenance	■	■	■
Central documentation with update service	■	■	■
Emergency operation			
Quick recovery after emergency shutdown	■	■	■
Fail-safe design (designed to return to safe state after failure)	■	■	■
Special requirements			
Primary frequency control	□	■	■
Primary voltage stabilizer	□	■	■
Island mode operation	□	□	■
Joint control	□	□	■

■ Standard feature   ■ Optional feature   □ Not available
