

OnCare.Acoustic

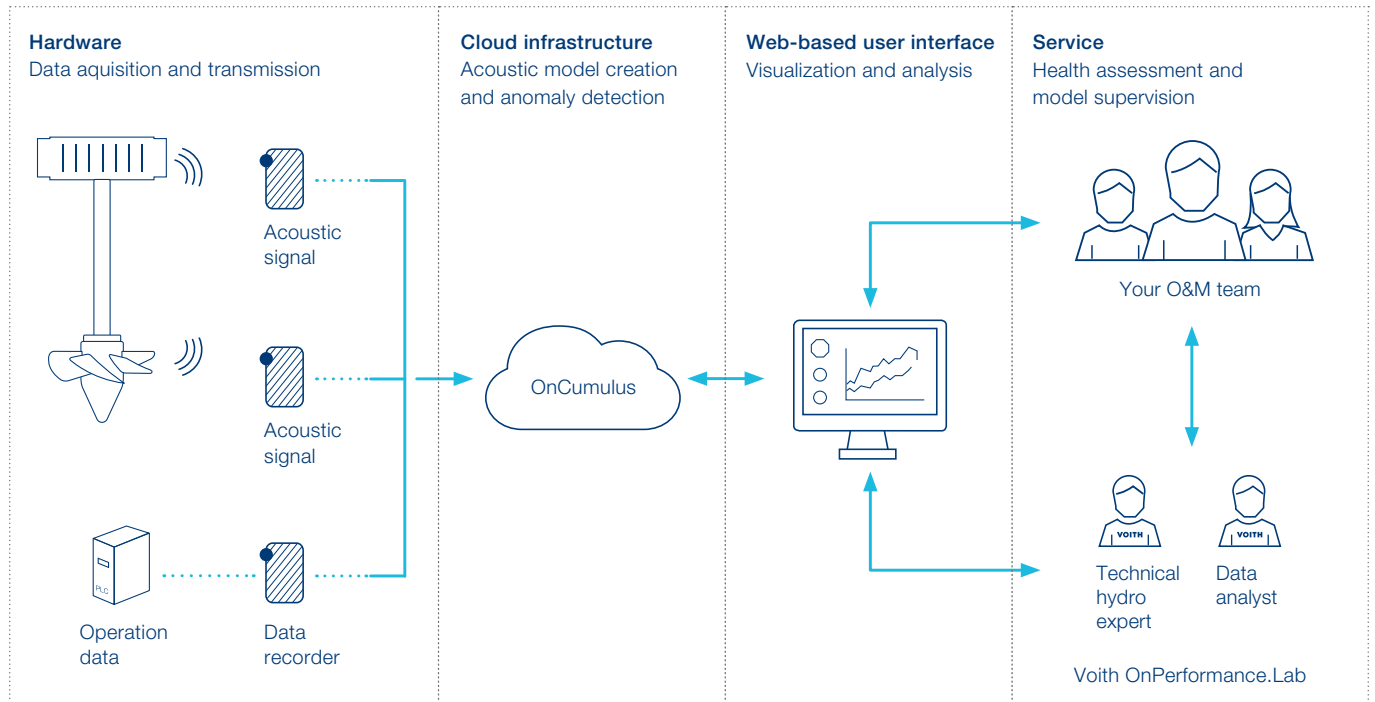

Understanding the voice of your machine

OnCare.Acoustic supports hydro-power plant operators in discovering potentially dangerous incidents by monitoring continuously the acoustic behavior of the machine.

Part of Digital Hydro

Functional principle

Customer benefits

- + Alert in case of sound anomalies
- + Acoustic sensor provides 24-hour monitoring
- + Easy to retrofit in existing power plants
- + On average three Sub Systems are covered by one microphone
- + Cloud-based application and highest security industry standards
- + Machine diagnosis support by Voith engineers
- + Already more than ten terabyte of data analyzed
